## 1 List of documents

DL-1171-1	Technical delivery terms – Lubricating oil for steam and gas turbines
K-1171-7	Delivery control of lubricating oil
MAT812109	Material specification – Lubricating oil
K-8962-11	In service monitoring of mineral turbine oils for gas and steam turbines
2043906	Instruction Changing Oil Charge / Lube Oil System
2032496	Oil Flushing instructions
2035742	Surface treatment system
K-2060-13	Cleaning and anti-corrosion treatment
K-2061-1	Cleaning
K-2061-2	Cleaning methods
K-2066-1	Anti-corrosion treatment
MAT 865200	Primer – Two-pack metallic zinc rich epoxy
MAT 824103	Rust Preventive
J241003E	GT10B, specification for Gaseous Fuels, EV and Conventional Combustion System
J482002E	Requirements for Instrument & Operating Air
W220027E	Guidelines for water and steam condensate quality in Siemens Industrial Turbomaschinery AB Gas Turbines
J242002E	GT10B, Specification for Liquid Fuels, EV and Conventional Combustion System
K-8436-1E	Fuel storage
K-8436-2	In service monitoring of fuel for gasturbines
W491023E	Recommended products for compressor cleaning in GT35C, GT10B/C and GTX100 gasturbines
K-8962-55	Specification for cleaning agents and water quality used for off line cleaning of compressor
J243006E	Additive treatment of contaminated gasturbine fuel of diesel oil grade for GT10

## Requirements
